

# THE PROJECT HABIT

Making **Rigorous PBL** Doable

## IMPLEMENTATION

### Chapter 3

5 | Where are we going?

Jigsaw

### Jigsaw

#### Expert Groups

Each expert group will be assigned to review an important area of study. Review the materials provided (videos, images, articles, etc.) about the area of study. Expert groups discuss the guiding questions for the topic.

#### Teaching Groups

New teaching groups are formed. Each group consists of one "expert" from the previous areas of study. Each expert shares their key learning.

#### Synthesize and Reflect

Pairs, expert groups, or the whole class engage in a discussion to tie together what they've learned and determine next steps.
